HECKLER & KOCH

VP9 A1-B

VP9A1-B (PUSH BUTTON) 9mm X 19

VP9A1-B FEATURES

With the new HK VP9A1, the best pistols (and the best shooters) get even better.

The VP9's well-deserved reputation for being a handgun that actually helps people shoot better is backed by numerous reports from law enforcement of qualifying scores improving significantly after adopting it.

All A1 upgrades to the VP9 revolve around enhancing the connection between serious users and their pistols. The improved trigger, the grip frame, the controls. They all work better with the user in the uncompromising pursuit of performance.

VP9A1 F-B

NEW A1 UPGRADES

STANDARD FEATURES

Optics-ready cut with cap. Machined steel adapter plates (sold separately) with integral recoil lugs

Serrated surface on the frame provides a tactile reference point

Slides are high strength steel with carbon-nitride "hostile environment" corrosion-resistant finish

Higher grip saddle lowers the bore axis for quicker target acquisition, less felt recoil, and faster follow up shots.

Enhanced trigger has a nickel-teflon coated trigger bar, providing a smoother pull and cleaner break.

The trigger safety and firing pin safety operate at 90 degrees to one another, forming a multi-axis safety system that offers superior protection against accidental discharge from jarring or dropping.

Improved ambidextrous controls are easier to manipulate without being overly obtrusive

20/17/15/10-round magazines available

Fully customizable grip – The VP9A1 includes a full set of interchangeable backstraps and side panels to custom fit each gun to any user for grip circumference and length of pull. 45 different configurations are possible.

VP9A1 K-B

Barrels are hammer forged from our proprietary blend of cannon-grade steel for higher precision and greater strength than lesser barrels.

Patented HK charging supports make pulling the VP slide rearward easy

Heavy-duty extractor functions as a loaded chamber indicator

Push button magazine release and reversed ambi option

15-round magazine also available in 10-round

VP9A1 K-B OE VTX

Additional front and rear maritime serrations provide an enlarged gripping area.

Factory-flared magwell for smoother reloads

Medium Extended Large Extended S L M

The take down lever remains locked until the magazine is removed and then the slide can be removed, without pulling the trigger

VP9A1 X-B

Adjustable length of pull – The VP9A1 now includes a total of five replaceable backstraps. This includes the existing S, M, L backstraps that change the circumference of the grip and two additional extended backstraps that allow you to fine tune the length of pull (the distance from the trigger face to the back of the grip).

Recess cut on the magazine base facilitates easier removal and/or retention.

Sight configuration features a high visibility tritium front sight with a clean, black serrated rear

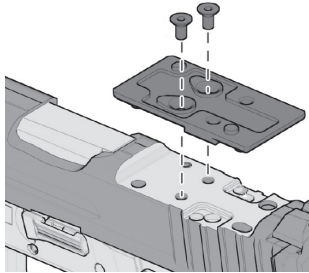

Cocked firing pin/striker indicator

S L M M L S

6 grip panels and 5 backstraps can be easily changed for a custom fit

VP9A1-B PISTOLS - OPTICS READY

OPTIC PLATE OPTIONS

Plate 01 - Meopta MeoSight III, EOTech MRDS, & Noblex Sight III (Part no. 50254261)

Plate 02 - Trijicon RMR, Holosun (Part no. 50254262)

Plate 03 - C-More STS2 (Part no. 50254263)

Plate 04 - Leupold DeltaPoint (Part no. 50254264)

Plate 05 - Burris Fastfire 2 & 3, Vortex Viper & Venom (Part no. 50254265)

Plate 06 - ACRO (Part no. 50257961)

Plate 07 - Shield (Part no. 50236732)

Plate EPS - Holosun EPS Carry (Part no. 51000381)

Plate 509T - Holosun 509T (Part no. 51000792)
