

SP5K-PDW Caliber 9 mm x 19

NEW PRODUCT

MP5 TYPE SIGHTS
The SP5K-PDW is equipped with the same adjustable sights used on the MP5K.

ROLLER-DELAYED BLOWBACK OPERATING SYSTEM
The SP5K-PDW uses the roller-delayed blowback operating system found on MP5 models – famous for its reliability, accuracy, and safe functioning.

WATER RESISTANT AND DURABLE CASE
The SP5K-PDW comes in its own hard case with a custom cutout to fit the pistol, sight tool, extra magazine, and accessories.

- Magazine, 9mm, 15 rounds - **215610S** (UPC 642230251809) **MSRP \$80**
- Magazine, 9mm, 10 rounds - **239257S** (UPC 642230255210) **MSRP \$80**

Who wants a copy when you can own the real thing?

The SP5K-PDW is semi-automatic civilian sporting version of the ultimate close quarters weapon – The HK MP5K. The “K” designation is from the German word for short – kurz; thus the K model’s shorter barrel and receiver.

But no matter the size, all SP5 and MP5 models share the same HK roller-delayed blowback operating system, which is legendary for its accuracy, reliability, and smooth shooting dynamic. Originally perfected on the Heckler & Koch G3 rifle, this system has been used on many HK firearms still deployed around the world. The SP5K-PDW was designed and manufactured to meet the definition of a civilian pistol. It is loaded with authentic features, like a 4.5” barrel with Navy-style threaded tri-lug adaptor, paddle magazine release, and fluted chamber.

The SP5K-PDW is manufactured in Heckler & Koch’s factory in Oberndorf, Germany. It retains many of the critical elements of the MP5 and MP5K, including its precision-machined components and attention to detail. This high level of quality and workmanship is a result of making civilian SP5 variants in the same factory, on the same lines, and by the same workforce that has been making MP5s for years.

SP5K-PDW Specifications
